Annual General Meeting  
& Presentation by

Sally Denman, Parent Coach-Educator, MCP, RCC

## **Starting conversations about race and diversity with young children**

As parents and caregivers of a new generation, we hope to raise our children to be conscious and inclusive. It is important to support our children's emerging understanding around race, different cultures, and biases. We will explore how to build our children's ability to embrace differences, celebrate diversity, recognise unfairness, and fight injustices.
